<b>Question 3</b>	

### Comment here on the revised conservation area boundary

The Conservation Area boundary shown for Claypitts Farmhouse does not reflect the legal boundary of this property, as the former excludes the pond on the eastern side of the property. Mr Bosworth has however visited the site and proposes to redraw the Conservation Area to include the pond and thus align the two boundaries. He also proposes a small adjustment to align the southern boundary of the Conservation Area with that of the fenced garden. These changes are very sensible in my view.
