## **1. Introduction**

The Uttlesford Local Plan was adopted in 2005. It still forms the basis for making planning decisions within the district alongside the National Planning Policy Framework published in March 2012 but it is becoming increasingly out of date and a replacement plan is being prepared.

This local development scheme is the project plan for producing the new Local Plan. It has three main functions:

- To provide information on the documents the Council intends to prepare together with timescales for preparation.
- To establish the Council's priorities and to allow the Council to programme the work needed to prepare the new plans.
- To set out the timetable for the review of documents.

The original LDS came into effect from 26 April 2005. At this time the Council was intending to produce a Local Development Framework made up of various documents including a Core Strategy and two separate development plan documents for site allocations and development management policies. There have been a series of LDSs produced since then. The last LDS (Revision 7) was approved in September 2012.

The previous LDS included provision for the production of a Community Infrastructure Levy (CIL). In February 2013 the LDF Working Group considered a report on the CIL and resolved to recommend to Cabinet through the production of the new development scheme that no further work on CIL is carried out so the CIL has been removed from this LDS. This current LDS makes provision for an additional stage of consultation on new housing numbers and additional sites which are proposed to be included in the Local Plan in order to make it sound.

The new timetable is shown in Appendix 2 and 3. Normally the Council will review the local development scheme every year and update it when necessary.

The LDS is available on the Council's website at [www.uttlesford.gov.uk](http://www.uttlesford.gov.uk). If you have any queries please contact the planning policy team on 01799 510461 or 01799 510454. ## 2. Terminology

The terms and abbreviations, which are used in this document, are explained below.

AAP	Area Action Plan	These plans will focus on implementation, providing an important mechanism for making sure development is of a suitable scale, mix and quality in key areas of opportunity, change or conservation. No AAPs are proposed in this local development scheme.
AMR	Annual Monitoring Report	Authorities are required to monitor the progress of the local development scheme and the extent to which policies in the development plan documents are being achieved.
CIL	Community Infrastructure Levy	CIL is a tariff based system which allows Local Authorities in England and Wales to raise funds from developers carrying out new building projects in their area. The money can then be used to fund a wide range of infrastructure needed as a result of the development.
DPD	Development Plan Document	These documents are the statutory documents with development plan status. For Uttlesford this will include the Local Plan and the Gypsy and Traveller Site Allocations. The community will be involved in preparing them and they will be tested at an Examination by the Planning Inspectorate.
IDP	Infrastructure Delivery Plan	This will set out the costs, funding, timetables and providers for the infrastructure needed to deliver the plan
LDS	Local Development Scheme	The LDS sets out the programme for preparing the LDDs
NP	Neighbourhood Plans	Neighbourhood plans will be prepared by local communities. They must be in conformity with the Local Plan.
NPPF	National Planning Policy Framework	Government statement of national planning policy.
RSS	Regional Spatial Strategy	This was prepared by the Regional Planning Body, it set out the strategic policies for development and use of land in the in the Region. The relevant RSS for Uttlesford was the East of England

		Plan published in May 2008. The RSS was revoked in January 2013.
SCI	Statement of Community Involvement	This document explains how and when stakeholders and the community can become involved in the preparation of the Development Plan Documents and the ways that this will be achieved.
SA	Sustainability Appraisal	Assessment of the potential impacts of the policies and proposals in the LDF on economic, social and environmental issues.
SEA	Strategic Environment Assessment	Assessment of the potential impacts of the policies and proposals contained within the LDF on the environment
EIA	Equalities Impact Assessment	Assessment of the Plan to make sure that the policies within it are free from discrimination in terms of a direct or indirect impact on any particular group.
SPD	Supplementary Planning Document	SPDs are intended to support the policies and proposals in DPDs but they do not have the same status as DPDs and they are not subject to examination.

### 3. About the District

Uttlesford is a rural area in northwest Essex and is geographically the second largest district in the County. It has a population of 79,443 (Source: 2011 Census). Approx 40% of the residents live in one of the three main centres of population, Great Dunmow (8,830), Saffron Walden (15,500), and Stansted Mountfitchet (6,460). The remainder live in the numerous villages and hamlets within the District. There are a large number of listed buildings and significant areas of attractive rural landscape and ancient woodland including Hatfield Forest. In the south of the district is Britain's third largest airport, Stansted. The Council is committed to preserving the rural nature of the area and the quality of life for its residents.

### 4. Saved Policies

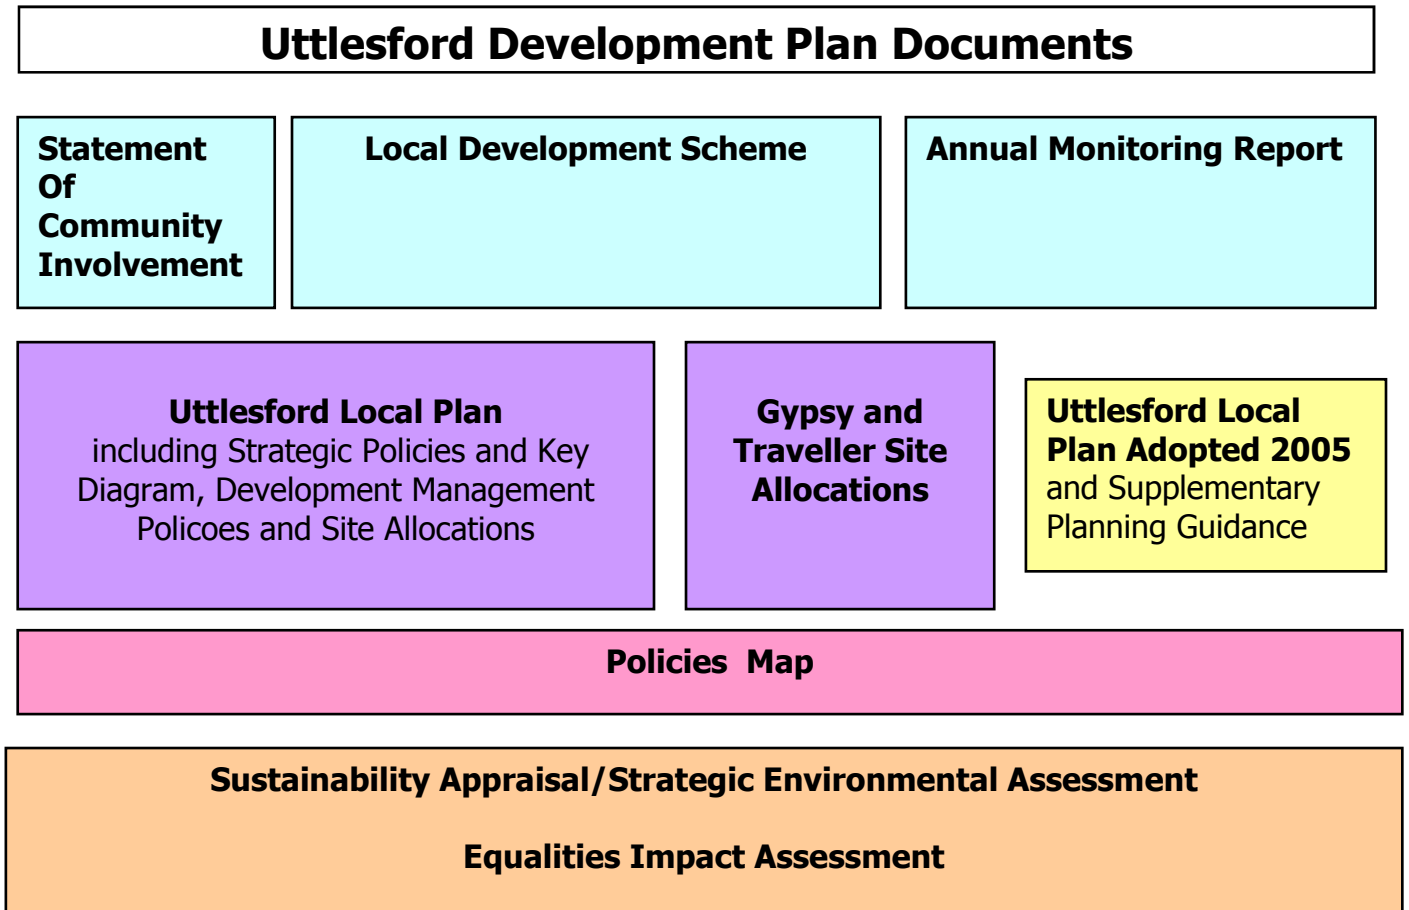

Planning policy for Uttlesford is currently made up of the National Planning Policy Framework (NPPF), the 2005 Uttlesford Local Plan prepared by the District Council and the Minerals Plan and Waste Plan prepared by Essex County Council.

The Uttlesford Local Plan was adopted on 20 January 2005 and the policies in it were originally "saved" for 3 years. In July 2007 the Council applied to the Secretary of State to extend the time period for the saved policies. All the policies in the Uttlesford Local Plan, except Takeley Local policies 1 and 2 – Land west of Hawthorn Close and Land off St Valery have been saved. Appendix 1 lists all the policies in the Uttlesford Local Plan and shows what will happen to each policy

when the new Local Plan is adopted. The policies in the Local Plan have been independently reviewed to check their consistency with the National Planning Policy Framework. The assessment is available on the Council’s website.

## 5. Uttlesford Development Plan Documents

As well as the Local Plan other documents are being produced which together will provide the framework for planning decisions in Uttlesford to be made. The diagram below shows the links between the documents.

- **The Uttlesford Local Plan 2005**

The Uttlesford Local Plan sets out the planning policies for the District until the policies are replaced by policies in the new Local Plan. Supplementary advice which has been adopted by the Council in support of some of the policies in the local plan will also remain relevant, until the policies are replaced.

- **Statement of Community Involvement**

The SCI lets people who may be interested in the plan know when and how they can get involved in the preparation of the Local Plan. Minimum requirements for public consultation are set out in regulations. The SCI

shows how these requirements are met and adds other measures, which the Council feels would be suitable. It identifies the groups to be involved and the techniques and resources required for effective involvement. The SCI was one of the first documents to be prepared and was first adopted in July 2006 following a written representations examination by an independent Inspector. The SCI was revised in March 2013 and following a 6 week period of consultation was adopted by the Council on 4 September 2013. It is available on the Council's website.

- **Annual Monitoring Reports**

The District Council needs to monitor how effective its policies are. This is done through a series of monitoring reports which are published each year. The purpose of the monitoring reports are to:

- Check how the Council is performing against the timescales set out in the LDS
- Check how the Council is performing in relation to the targets in the Uttlesford Local Plan.
- Give information on the extent to which the policies in the Local Plan are being achieved.
- Examine whether the Local Plan needs reviewing before the scheduled main review date.

In the light of the monitoring the Council will consider what changes, if any, need to be made to the policies. This will be reflected in an updated LDS. An AMR will be produced each year looking at the period from 1 April to 31 March. The reports are posted on the Council website.

- **Strategic Environmental Assessment (SEA) / Sustainability Appraisal (SA)**

SEA/SA is a process that will make sure that social, economic and environmental considerations are fully taken into account at every stage of preparation for each Development Plan Document produced. All plans and policy documents need to undergo SEA/SA. The Council has commissioned consultants to develop a sustainability framework in consultation with relevant bodies. For each document various options developed through consultation will then be tested against the framework to identify preferred options. Further consultation will allow people to comment on the preferred options and the sustainability report. Changes made as a result of the public consultation will be appraised before both the Local Plan and the sustainability report are submitted for examination by an independent Inspector.

- **Equality Impact Assessment**

As well as the SA/SEA the Council has to carry out an Equalities Impact Assessment (EIA) for all plans and policies it produces. An EIA will be done as part of the production of each development plan document to make sure that plan and the policies it contains are free from discrimination and promote equality of opportunity. The EIA is one of the

documents which the Council has to send to the Inspectorate for the examination.

- **Local Plan**

This will be subject to independent examination by a Planning Inspector. The Inspector needs to be satisfied that the document meets the various procedural requirements and is sound. The Inspector will recommend changes that are required to overcome any aspects relating to the soundness of the plan that they have identified and which can be corrected within the scope of the regulations – if major changes are required the Inspector is likely to find the plan unsound. The Council cannot adopt a plan which is found unsound. The Local Plan should address issues set out in the Uttlesford Sustainable Community Strategy.

The local plan will contain:

- The Council's vision, objectives and the spatial strategy for the future development of the district.
  - Strategic Policies – policies which provide the overarching framework for planning decisions within the district
  - Site Allocations Policies – covering detailed aspects of site delivery
  - Development Management Policies – detailed policies against which planning applications will be considered.
  - Policies Map and Key Diagram - The policies map will show all the policies and proposals and identify areas of protection on an Ordnance Survey base. The key diagram will illustrate the proposals.
- **Gypsy and Traveller Site Allocations**  
This plan will contain specific policies covering the sites needed to deliver the required spaces and include e.g. Access, design principles, landscaping.
  - **Non-Development Plan Documents**

- § **Supplementary Planning Guidance (SPG) and Supplementary Planning Documents (SPD)**

This currently only applies to SPGs and SPDs which have been prepared to support the saved policies in the Uttlesford Local Plan but as the Local Plan and other DPDs are adopted more SPDs may be produced to support the policies in them. These documents are a material consideration for development management purposes but they are not subject to independent examination. The Council will make them available for public consultation before they are adopted in accordance with the regulations and the SCI.

- § **Council Approved Guidance**

The Council will approve Parish Plans and Village Design Statements where they have been prepared in accordance with the protocol and guidance prepared by the Essex Rural Community

Council, Village Design Statement Group and the Essex Planning Officers Association. These will then be used for development management purposes.

## 6. Profiles of Proposed Development Plan Documents

The following profiles set out the details of each DPD still to be prepared. The overall programme is also shown in the table at Appendix 2 and the chart at Appendix 3. The Council is required to consult with organisations, residents and businesses as part of the preparation of the plan. A two stage consultation process where the issues are identified and options are considered before more detailed “preferred” options are presented for further consultation seems a logical approach and the key stages below reflect this.

- **January 2015**  
Adoption

**Production and Management:** the Planning Policy Team will prepare the Gypsy and Traveller site allocations DPD. Approval of key stages will be by the relevant portfolio holder and adoption by Full Council. Involvement of stakeholders will be in accordance with the SCI.

**Review:** The Gypsy and Traveller site allocations DPD will be subject to annual monitoring and review.

## 7. Supplementary Planning Guidance and Supplementary Planning Documents

The Council has adopted supplementary planning guidance (SPG) and master plans to support the saved policies in the Uttlesford Local Plan 2005 as listed in the table below. The SPG will remain in force until the development is complete or the saved policies are replaced. The Council will then review the SPG and replace with updated supplementary planning documents (SPDs) as necessary.

<b>Policy No</b>	<b>Title of Supplementary Planning Guidance</b>
GEN2	Essex Design Guide
GEN8	Essex County Council, Parking Standards – Design and Good Practice
Takeley /Little Canfield Local Policy 3 – Priors Green	The Island Sites
Chesterford Park Local Policy 1	Master Plan for Chesterford Park – Employment Scheme
GD5	Master Plan for Woodlands Park – Residential Development
GD6	Master Plan for Great Dunmow Business Park – Employment Scheme
Oakwood Park Local Policy 1	Master Plan for Oakwood Park – Residential Development
SM4/BIR1	Master Plan for Rochford Nurseries – Residential Development
Takeley/Little Canfield Local Policy 3 – Priors Green	Master Plan for Priors Green – Residential Development

The Council has produced four SPD's to support policies in the Uttlesford Local Plan 2005. These are:

- Accessible Homes and Playspace (including lifetime homes)
- Home extensions
- Replacement dwellings,
- Energy efficiency.

Supplementary Documents on Home Extensions and Accessible Homes and Playspace were adopted in November 2005 and the SPD on Replacement Dwellings was adopted in September 2006. The Energy Efficiency SPD was adopted in October 2007. The Council has also adopted the Urban Place Supplement to the Essex Design Guide. This was prepared by the County Council and adopted by the District Council in March 2007. In January 2010 the Council approved the Essex County Council's "Parking Standards, Design and Good Practice" September 2009 document for use as District Council planning

guidance, superseding Appendix 1 of the 2005 Adopted Uttlesford Local Plan (ULP). Further changes were approved in February 2013.

The Council has carried out appraisals and developed management plans for the Conservation Areas in Arkesden, Ashdon, Clavering, Felsted, Great Chesterford, Great Dunmow, Great Sampford, Hatfield Broad Oak, Hempstead, Henham, High Easter, Littlebury, Manuden, Radwinter, Saffron Walden, Stansted Mountfitchet, Stebbing and Thaxted. Following consultation with the local community the Council has approved these appraisals and the associated management plans as non-statutory guidance. Draft Conservation Area Appraisals are available for High Roding, Wendens Ambo and Widdington.

The Council has also approved the following Parish Plans and Village Design Statements as non-statutory guidance to use when considering planning applications and to help inform preparation of the LDF.

Arkesden	Parish Plan	2009
Ashdon	Parish Plan	2007
Birchanger	Parish Plan	2006
Chrishall	Parish Plan	2007
Great Canfield	Village Design Statement	2010
Great Dunmow	Town Design Statement	2009
Hadstock	Parish Plan	2007
Little Bardfield	Village Design Statement	2009
Littlebury	Parish Plan	2009
Newport	Village Plan	2010
Radwinter	Parish Plan	2007-2012
Stansted	Parish Plan	2011
Thaxted	Village Design Statement	2010
Wendens Ambo	Parish Plan	2012
White Roding	Parish Plan	2009
Widdington	Village Design Statement	2009

All the council approved guidance is available on the Council's website.

The Civil Parishes of Great Dunmow and Saffron Walden have both been designated as Neighbourhood Plan Areas.

## 8. Other Documents

The local authority is required to produce a sustainable community strategy (SCS) following consultation with the local community and key local partners through the Local Strategic Partnership – the LSP for Uttlesford is known as Uttlesford Futures. The SCS sets out the strategic vision for a place and provides the vehicle for considering and deciding how to address difficult cross cutting issues such as the economic future of an area, social exclusion and climate change. The key spatial planning objectives for the area should reflect the SCS priorities.

The Development Plan Documents for Uttlesford will also reflect the aims set out in the following documents. The wider policy aims will be included in the strategic policies and the more detailed policies will be reflected in the development management policies and the site allocations as appropriate.

- The Sustainable Community Strategy 2008
- Housing Strategy 2012-2015
- Natural Resources Management – Policy Statement and Improvement Strategy 2010
- Economic Development Strategy 2012-2014
- Safety Partnership 2012 Strategic Assessment Report
- Equalities and Inclusion Policy 2007
- Joint Municipal Waste Management Strategy for Essex 2007-2032

## **9. The Evidence Base**

The Council will prepare and keep up to date information on all aspects of the social, economic and environmental characteristics of the District as set out in the table at Appendix 4. Much of the information that will be needed is available within the Council as part of annual monitoring e.g. housing supply, or is available from other organisations and/or websites e.g. population data. New study work has been commissioned and completed on housing markets, water resources, leisure facilities/playing fields, biodiversity, the economy, flood risk assessment and landscape character assessment. The studies are reviewed as necessary to make sure they remain relevant and up to date.

The evidence base is being compiled using in house resources as well as consultants. There has been joint working with Essex County Council and adjoining local authorities.

## **10. Staff Resources and Management**

A member working group has been set up to steer and monitor the programme for the Local Plan work – this is known as the Local Plan Working Group (previously known as the LDF Working Group). The group is open for all members to attend. The meetings are not open to the public but the papers and the minutes are available on the Council's website.

The policy team, which currently consists of three planning officers, is working to prepare the development plan documents, drawing in other staff from within the Council where appropriate. The Council is also working together with other Local Authorities, statutory consultees, the Planning Inspectorate and other organisations like the Planning Advice Service (PAS) where necessary.

The policy team using other internal or external resources as appropriate will undertake monitoring and produce annual monitoring reports.

## 11. Risks

- **Funding**

Funding remains a major issue for the Council. Budget constraints will continue to limit funding available for commissioning additional study work or securing additional staff resources.

- **Programme**

The programme for the Local Plan preparation is proving challenging. Additional consultation stages have had to be programmed in. The additional work to support the evidence base for the Local Plan and other DPDs has had to be done. It has been difficult to predict with certainty the length of time it will take to produce the plans.

To reduce the impact of the above the programme will be carefully managed to make sure it remains realistic. Through the Stansted/M11 Local Authority Partnership and the Essex Policy Forum the Council will keep up to date with the progress of other Essex and Hertfordshire Districts, sharing experiences and adjusting the timetable where necessary. The Government Office and PINs have been consulted on the LDS in the past and their comments regarding the timetable have been taken into account. The abolition of the Government Office at the end of March 2011 means that this source of advice and guidance is no longer available. The Planning Advisory Service is another potential source of advice.

- **Evidence Base**

Staff time and resources are required to assemble the evidence base. The relatively long lead in times for the preparation of the DPDs should allow enough time for the work to be completed. Limited budgetary provision has been made for the appointment of outside consultants for specialised tasks e.g. the water cycle study but due to the Council's financial position other studies have been carried out internally e.g. the strategic housing land availability assessment. Some joint commissioning of work has been done to help reduce costs and other opportunities for this will be investigated.

- **Staff Resources**

The team which will be working on the production of the DPDs is relatively small with 3 permanent staff. The Council's financial position has meant there is no opportunity to secure additional staff resources. There is the opportunity to use other staff within the planning service and/or within the Council to help with some aspects of the work and there may also be an option to employ agency staff to cover peaks in workload but this would only be for a very limited period.
