### Situation

- 1 Members will have recently received detailed budget monitoring information for all the Council's services.
- 2 The Appendices in this report only relate to the Development Control Committee.
- 3 Appendix B shows that overall, the Committee's net spending to the end of May is underspent by £63,251 against the profiled budgets for the same period.
- 4 Members should note that it is still very early in the financial year, and more meaningful monitoring figures will be produced as the year progresses.
- 5 In addition to the information being sent on services to all Councillors, a report on high profile budgets across the Council is submitted to the regular meetings between the Strategic Management Board and the political administration.
- 6 Performance Select Committee will monitor all budgets exceeding 10% of their variance from the profiled budget, and receive explanations from HoDs.

### Risk Analysis

Risk	Likelihood	Impact	Mitigating actions
Members do not carry out budget monitoring as highlighted by the external auditor.	1	4	A process is now in place to ensure all members receive monthly reports
HoD's do not monitor their budgets on a regular basis	2	4	Members do require explanations where profiling has shown overspends/lower income
No corrective action takes place to offset overspends or lower income	2	4	Members can monitor monthly reports to see if corrective action is taking place.
Further pressure is placed on reserves	2	4	Finance Committee will receive regular reports for the whole of the Council's budget
HoD's are not accountable for their budgets	2	4	HoD's will have to attend service committees, and possibly Performance Select Committee to explain variances over 10% of profiled budgets.
