Fire Break

8 A firebreak scheme ran in June at Newport Fire station for 12 young people from the Uttlesford District. The course was delivered by a team of fire fighters and non-uniformed staff from within Essex Fire and Rescue Services. It was a five day course based on actual fire service activities and procedures including eating a huge breakfast before duties start!! The course was designed to help young people build personal skills such as self confidence, self discipline and respect for themselves and others. In addition, it also assists personal development by helping the young people acquire communication and leadership skills and experience of working in a team. The week ended with a passing out parade, to which teachers and parents were invited to enable the young people to 'show off' their new found skills!

Background Research

Nationally it has been shown that Young Drivers aged 17-25 years have the highest rate of accidents and one in three, male drivers between the ages of 17 & 20 have an accident within the first two years after passing the test. Passengers with young novice drivers run a higher risk of being involved in a serious accident.

If we can get to the target area at an early stage it is hoped that a foundation of responsible attitudes will be laid.

The aim of the project is to give the students the opportunity to experience an exciting, challenging and rewarding day, where they have hands on activities which will aid them to understand, evaluate and rectify situations as drivers, passengers and as members of the community.

The objective of the project is to help young people to, realize their mortality and accept responsibility for their own safety and others. Cope with dangerous situations, make sensible decisions based on acquired knowledge and learn social responsibility.

We are also very fortunate to have the support of a very strong partnership that deliver the project; they are, UDC Community Safety, Community Development, ECC Road Safety, Essex Traffic Police, Essex Police School Liaison, Essex Fire and Rescue and Essex Youth Service and FedEx.
