

LICENSING ACT 2003	
<b>Premises :</b> Coleville Hall, Chelmsford Road, White Roding CM6 1RQ	<b>From:</b> Andy Bonham, Environmental health Officer
<b>Summary of Representation:</b> <i>The application is not sufficiently detailed to satisfy our concerns that the amplified music will not cause a public nuisance. To overcome these concerns, we wish to apply the following conditions to the licence.</i>	

1. A noise management plan shall be submitted to the licensing authority within 7 days prior to the first wedding event involving amplified music for approval by the Council's Environmental Health Team. No amplified music event shall take place unless adequate noise mitigation measures have been proposed. The Premises Licence Holder must comply with the agreed noise management plan at all events that involve the playing of all amplified music to prevent public nuisance.
2. The Premises Licence Holder or nominated person shall assess the impact of any noise on neighbouring premises at the start of any regulated entertainment and periodically throughout the regulated entertainment and take any action to ensure compliance with existing licensing conditions.
  - (i) If the observation reveals noise breakout at a level likely to cause disturbance to the occupants of properties in the vicinity then the volume of music shall be reduced to a level that does not cause disturbance.
  - (ii) A record of such observations shall be kept in a log for that purpose, such a log shall be completed immediately after the observation detailing the time, location and duration of the observation, the level of noise break out and any action taken to reduce noise breakout.
  - (iii) Such records must to be made available at all times upon request to a police officer or an officer of the local authority.
3. The Premises Licence Holder or nominated person shall control the sound levels of the music/entertainment.
4. All amplified sound sources (including live performances) from the premises will go through a noise limiting device.
5. A noise limiting device (the specification and design to be agreed with Uttlesford District Council's Environmental Health Service) shall be fitted so that all regulated entertainment is channelled through the device(s). The maximum noise levels will be set by agreement with the Uttlesford District Council's Environmental Health Service and will be reviewed from time to time as appropriate.
  - (i) The noise limiting device shall be kept at the settings approved by the Council through an authorised officer of the Uttlesford District Council's Environmental Health Service.
  - (ii) The Premises Licence Holder or nominated person shall ensure that the noise limiting device is sealed after commissioning, so that sound operators cannot override the system during the performance of live and recorded music.
