PC10

ENFORCEMENT STRATEGY REPORT

The Enforcement Team Leader presented a report which reviewed the operation of the Enforcement Strategy which had been adopted by the Committee on 29 June 2011. The strategy had been prepared to assist members of the public in understanding the role of planning enforcement. The report set out the current process of dealing with complaints and member noted the improvements in reporting that were expected with the introduction of the Council's new planning software system.

Members asked a number of questions about the enforcement process, in particular in relation to the often lengthy time scales involved in resolving cases. It was noted that there had been a reduction in the number of formal notices issued in the last few years. This was due to officers placing greater emphasis on negotiation and resolving complaints in ways other than taking enforcement action.

It was agreed that the Enforcement Strategy should be reviewed again in 12 months time.

RESOLVED that the Committee notes the report and endorses the Planning Enforcement Strategy for ongoing use.

RESOLVED that the amended Development Management Local Validation Checklists and associated documents be adopted for Development Management validation purposes.
