Progress Update: Work through the Community Response hub has led naturally to supporting the older residents of the District. Although not limited to, a huge amount of work has taken place around the Clinically Extremely vulnerable and those that needed to self-isolate, facilitating prescription deliveries, befriending, shopping. Strong links have been made with volunteer groups across the District which will strengthen when we are working back within our communities. Unfortunately due to COVID 19 restrictions there has not been the ability to run/commission group activities that have been identified through the Health and Wellbeing Board however they will be taken forward once lockdown has been lifted and restrictions eased. The hub work has allowed us to identify gaps in provision for residents including our elderly and this will be reflected in the Health and Wellbeing strategy going forward.
