Situation

8. The Council received an application from Little Dunmow Parish Council for the designation of a Neighbourhood Development Plan Area on 25 April 2021. This request was made under Section 5-7 of The Neighbourhood Planning (General) Regulations 2012 (as Amended 2015 and 2016).
9. No consultation is required as per Regulation 5A of the Neighbourhood Planning (General) and Development Management Procedure (Amendment Regulations 2016)).
10. The application includes the requisite map relating to the parish, a statement explaining why the area is considered appropriate for designation as a neighbourhood area and a statement confirming that the application has been made by a relevant body i.e., Parish Council in this case (Appendix 1).
11. The Parish Council has proposed that the Neighbourhood Plan Area is contiguous with the Parish Boundaries of Little Dunmow (Appendix 1). The Parish Council consider that this is the appropriate area to be designated as it is the area administered by Little Dunmow Parish Council.
12. As the application is for the entirety of the parish council area, with no part falling outside the parish boundary, the Council is obliged to approve the proposed "neighbourhood area" for the purposes of a neighbourhood plan. (Reg 5A (1), Neighbourhood Planning (General) Regulations 2012).

13. At this stage no ideas have been developed about the type of policies which the Plan would include. However, this would be led by the Parish Council and their public consultation. The Neighbourhood Development Plan will need to be in conformity with the strategic policies of the District Local Plan for it to be accepted.

Risk Analysis

13.

Risk	Likelihood	Impact	Mitigating actions
Concerns and complaints may be raised about the area designated.	1 – Low likelihood as the boundary is contiguous with the Parish Council which is a logical boundary.	2 – Little or no impact would occur.	Publicising the designation in accordance with the Regulations.

1 = Little or no risk or impact

2 = Some risk or impact – action may be necessary.

3 = Significant risk or impact – action required

4 = Near certainty of risk occurring, catastrophic effect or failure of project.
