

Member Motion on Written Questions to the Executive and Committee Chairs Protocol:
Council, 26 February as proposed by Councillor Barker and seconded by Councillor Gregory

This Council believes in openness and accountability and therefore agrees that for written questions asked at Council, submitted within the required timelines, and requiring a numerical, statistical or other data driven response, best endeavours must be made to provide a full, comprehensive and factual answer by the time of the relevant meeting of Council – and if not possible within that timescale, as soon as practicable thereafter.
