Uttlesford Local Plan –Addendum of Focussed Changes
October 2018

Focussed Changes

This addendum should be read alongside the Regulation 19 Local Plan that was subject to a representation period from 25 June 2018 to 13 August 2018.

			for development here as part of a larger garden community extending into Braintree. The exact delivery model for each garden community will be determined separately from the land-use planning process, however the Council will need to be satisfied that any proposed delivery model will realise all the garden city principles and a test will be established in the Development Plan Document to enable this to be determined. Delivery models could range from privately led arrangements to locally-led development corporations with compulsory purchase powers. If necessary, the Council will consider intervening directly to ensure the garden city principles are met within the proposed timetable set out within the Local Plan.

The proposed focussed changes seek to reflect the elevated risk around the delivery at WoB GC, and indicate what measures the Council will take if there are delivery issues around WoB GC.

Proposals must demonstrate the deliverability of the wider garden community. Proposals that are not part of the larger cross-boundary site, and do not demonstrate the deliverability of the wider garden community, will be refused. The details and final number of homes will be set out in a Strategic Growth Development Plan Document to be prepared jointly by Uttlesford and Braintree District Councils. Up to 3,500 of these	The proposed focussed changes seek to reflect the elevated risk around the delivery at WoB GC, and make clear that the land in WoB GC on the Uttlesford side of the boundary is not deliverable on its own without the land in Braintree District Council's

7	174	EN8 Protecting and Enhancing the Natural Environment, 3 rd paragraph	Where a site of International designation for nature conservation importance is adversely affected by the proposals, permission will be refused unless the District Council is satisfied that: there are imperative reasons of overriding public interest, which could be of a social or economic nature, sufficient to override the harm to the site; or there are imperative reasons of overriding public interest relating to human health, public safety or benefits of primary importance to the environment. Furthermore, where a proposal relies on mitigation measures to address potential effects on a site of international designation, the Council will need to undertake an appropriate assessment under the Habitats Regulations and will require the developer to provide the necessary information to enable this to be done. Planning permission will not be granted unless all necessary mitigation measures are secured.	Sites protected at a European level, e.g. Epping Forest Special Area of Conservation, are afforded strong protection from impacts. The policy seeking to protect such sites from development should make clear that planning applications should be supported by appropriate mitigation measures.
8	189	EN15 Air Quality, new criterion 10	10. Development affecting the habitats or species of a site of International designation will need to show that the development does not adversely affect the air quality of the site.	Sites protected at a European level, e.g. Epping Forest Special Area of Conservation, are afforded strong protection from impacts. There is currently work being undertaken looking at air quality impacts on Epping Forest The policy seeking to protect such sites from development should make

0	270			clear that planning applications should be supported by appropriate mitigation measures.
9	270	M2 Implementation and Monitoring of Strategic Projects, new paragraph at the end of the policy	If problems arise such that it becomes apparent one or more of the Garden Communities is significantly delayed, or is not deliverable, and should that restricts the Council's ability to meet the homes and jobs requirements, then the Council will undertake an early review of the Local Plan to consider how these requirements can be met.	The proposed focussed changes seek to reflect the elevated risk around the delivery at WoB GC, and indicate what measures the Council will take if there are delivery issues around WoB GC.
10	282	Appendix 1, new appendix to be inserted prior to appendix 1.	See the text appended to this document at Appendix 1	The NPPF requires Local Plans to set out the Strategic Policies in their area. The new appendix seeks to do this using the guidance in the NPPF2012 and NPPG.

Appendix 1 – new appendix to the Local Plan setting out the Strategic Policies

Appendix 0

The National Planning Policy Framework 2012 (NPPF2012) states that a local planning authority should set out clearly the strategic policies for their area (para 184). There is guidance provided at national level for identifying strategic polices both within the National Planning Policy Framework (NPPF) – paragraph 156 and the National Planning Practice Guidance (NPPG) (paragraph 074 -077 Ref ID: 41-074-20140306).

The Council has used this to identify the strategic policies in the Submission Local Plan.

The Criteria used for identifying Strategic Policies Extract from NPPF Local planning authorities should set out the strategic priorities for the area in the Local Plan. This should include strategic policies to deliver:

- 1. the homes and jobs needed in the area;
- 2. the provision of retail, leisure and other commercial development;
- 3. the provision of infrastructure for transport, telecommunications, waste management, water supply, wastewater, flood risk and coastal change management, and the provision of minerals and energy (including heat);
- <u>4. the provision of health, security, community and cultural infrastructure and other local</u> facilities; and
- <u>5. climate change mitigation and adaptation, conservation and enhancement of the natural</u> and historic environment, including landscape.

Extract from NPPG

When reaching a view on whether a policy is a strategic policy the following are useful considerations:

- A. whether the policy sets out an overarching direction or objective
- B. whether the policy seeks to shape the broad characteristics of development
- C. the scale at which the policy is intended to operate
- D. whether the policy sets a framework for decisions on how competing priorities should be balanced E. whether the policy sets a standard or other requirement that is essential to achieving the wider vision and aspirations in the Local Plan
- <u>F. in the case of site allocations, whether bringing the site forward is central to achieving the vision and aspirations of the Local Plan</u>
- G. whether the Local Plan identifies the policy as being strategic

These criteria have been used to identify why a policy is considered to be strategic – for NPPF criteria from 1- 5 and for NPPG from A-G. The following table identifies the strategic policies in the Submission Local Plan.
